

## INFORMATION REGARDING REQUIRED LICENSURE EXAMINATIONS

In order to qualify for technical licensure, an applicant must pass certain examinations as detailed in the Licensing Information Booklet and as required by N.J.A.C. 5:23-5. Experior Assessments is the testing agency responsible for administering examinations for the National Certification Program for Construction Code Inspectors (NCPCCI). The International Code Council (ICC) also administers their own bank of examinations that have been deemed acceptable as meeting licensure requirements as of January, 2004. Those examinations are approved by the Department to meet the licensure examination requirements. Please consult the Licensing Information Booklet for the particular examinations required for the license(s) you are seeking.

For NCPCCI examination and registration information please call Experior at 800-864-5309. An examination candidate bulletin may also be obtained on-line at [www.experioronline.com/ncpcci.htm](http://www.experioronline.com/ncpcci.htm) or by contacting the Licensing Unit at 609-984-7834. ICC exam reference and registration information, including candidate bulletin, may be obtained at their website: [www.iccsafe.org](http://www.iccsafe.org) or by calling 866-422-3926.

### Test Module Designation and Name

1A	Building 1 & 2 Family
1B	Building General
1C	Building Plan Review
2A	Electrical 1 & 2 Family
2B	Electrical General
2C	Electric Plan Review
3B	Fire Protection General
3C	Fire Protection Plan Review
4A	Mechanical 1 & 2 Family
4B	Mechanical General
5B	Plumbing General
5C	Plumbing Plan Review
6B	Elevator General

Please note that there are additional examinations within both the NCPCCI and ICC programs, but those are not part of the New Jersey requirements. Also be aware that the exams, as their names imply, are national organizations. As such, the examinations are based upon the latest edition of the various model codes, which may not necessarily correspond to the editions of the model codes enforced in the State of New Jersey. Information on the applicable codebook editions that will be covered by each of the test modules administered can be found in the candidate bulletin.

Information to help prepare for most of the test modules listed above can be obtained through the International Code Campus, on-line at [www.iccsafe.org](http://www.iccsafe.org).
